Objective

Ambitious new projects

Enthusiastic full-stack developer, with a flair for managing digital assets, crafting engaging videos, and ensuring online security. I'm on the lookout for a team where I can apply my skills in building web applications, while fostering a collaborative and supportive environment. Let's innovate together and make a positive difference!

Education

Bachelor of Engineering

2016 - 2020 | Św. Filipa, Cracow (Poland)
Mobile and Web Application Programming
Computer Science and Econometrics
Wyższa Szkoła Ekonomii i Informatyki

IT Technician

2012 - 2016 | Monte Cassino, Cracow (Poland)
Upper-Secondary Schools of Communication
Technikum Łączności nr 14 (2nd in PL 12 - 16)
Zespół Szkół Łączności w Krakowie

Certificates

Microsoft MTA 98-375

Expertise: HTML5 Application Development

Microsoft MTA 98-364

Expertise: Database Fundamentals

Competencies

Modern web frameworks | ReactJS
CMS and CRM systems | WordPress
Conducting penetration tests

Data migration & integrity | Oracle Database
Understanding business model | UML & BPM
Leading teams | Conducting hackathons

Video composing | Edit and color correction
Graphic crafting & design | Adobe CC
Brand identity crafting & design

Experience

Husarion S.A

Jan 2024 – now | Digital asset manager and video composer

I manage and organize digital video assets. Creating high-quality video content using DaVinci Resolve and Adobe CC, including tasks like ingest, editing, composition, and color correction. Ensuring final video met their vision, consulting on appropriate frames, shots, and exposure parameters.

`Adobe CC` `DaVinci Resolve`

Vapture (Krzysztof Kaim, JDG)

May 2020 – now | Full-stack Developer (own business) & Freelancer

As web developer driven by curiosity, I operate a business, conduct client communication and manage complex website projects (i.a. Robinson Travel, Tysiola) using hand-coded solutions (using React) along with Node.js and the .NET ecosystem, mainly ASP.NET (MVC), likewise CRMs (WordPress). As a freelancer, I translated multiple medical device manuals (TransPerfect).

Archman sp. z o.o.

Sep 2018 – Sep 2019 | Penetration Tester

I uncovered high-risk vulnerabilities in proprietary ECM platform through black box penetration testing (Wireshark, AppSpider and Chrome Dev Tools), then documented findings in the accessible document with mitigation strategies and delivered them to development team. Presented findings reduced attack risk and clearly strengthened platform security.

`Wireshark` `Chrome Dev Tools` `AppSpider`

WSEI & Park Technologiczny WSEI

Oct 2016 – May 2020 | Front-end Developer & Graphic Designer

As developer and graphic designer at WSEI, I co-organized 3 successful hackathons attracting 100+ participants using Microsoft tools within Azure. Streamlined team communication with hand-coded email newsletters. I created engaging graphics (infographics, social media posts) contributing to bragnd awareness. I led WSEIcraft 4.0 team as Student Government VP.

Kopalnia Soli "Wieliczka" S.A

Jul 2015 – Aug 2016 | IT Infrastructure Technician

I migrated data seamlessly between numerous Oracle Database sites, ensuring smooth transitions and data integrity, created a comprehensive local network map using Microsoft Visio, aiding in efficient network troubleshooting and maintenance. I demonstrated initiative by taking on physical maintenance of equipment, ensuring continued uptime and operation, also proactively shared knowledge, fostering team efficiency.
